## Food Safety for Local Growers:

### Understanding the Top Restaurant and Customer Requirements

Consumers value fresh and local, but above all, they want to trust in the quality and safety of the products they buy. That's why the Produce Marketing Association (PMA) and Danaco Solutions, LLC have joined forces to develop a one-day program uniquely-tailored to help local growers explore the challenges of implementing a company food safety plan, meet the requirements of various customers, and above all, protect your business and bottom line. Food Alliance will be on hand to answer questions you have regarding sustainability certification.

Through hands-on demonstrations and discussions with experts, you will leave with the tools you need to build your own customized food safety program, based upon your specific business model.
